Objective

Computer science student with experience in sales and solution integration. Eager to develop solutions for any situation and company by developing cloud solutions and full stack applications.

Education

Missouri University of Science and Technology

Dec 2026

B.S. Computer Science

GPA: 3.612/4.000

Experience

Intelag Corporation

Edwardsville, IL

Full Stack Developer – Startup

Jan 2025 – Current

- Architected the company's AWS cloud foundation in its first week, accelerating infrastructure readiness by 50% compared to on-premise setup.
- Created python solutions to interact with AWS services by ingesting JSON files, resulting in 60% faster deployment of resources
- Established company's website using Webflow
- Developed multiplatform user interfaces using Flutter.

Lambda Chi Alpha Fraternity – Missouri University of Science & Technology

Rolla, MO

Recruitment Chair

Nov2024 – Current

- Increased chapter membership by 30% through targeted recruiting, projecting \$819K in additional cash flow over 4 years.
- Developed Python scripts using Apple APIs to conduct advertisement campaigns to over 1000 incoming students across the nation through Microsoft and Apple applications
- Developed a CRM application using Notion to track potential new members
- Educated 60 members on sales strategies, driving a 40% increase in recruitment engagement.

Hunter Engineering Company

St. Louis, MO

Machine Learning Co-op

Jun 2024 – Jan 2025

- Developed UI/UX using ReactJS and implemented scalable back-end solutions in Python, reducing data annotation time to 8 seconds per image
- Optimized data retrieval tools by utilizing complex SQL queries with Python and FastAPI scripts, reducing data upload time from 2 days to 7 hours
- Executed data annotation for machine learning, aiding in precise model training and deployment
- Enhanced model training performance through rigorous debugging, code optimization, and foundational understanding of PyTorch Distributed Data Parallel and reducing training time to 1 hour instead 4 hours

Skills

- | | | | |
|-----------|-----------|-------|---------------------------------|
| • Python | • SQL | • C++ | • ReactJS |
| • Flutter | • PyTorch | • AWS | • Microsoft Azure |
| • Docker | • Jira | • Git | • Bilingual : Farsi and English |

Honors and Activities

- Lambda Chi Alpha Fraternity – St. Patrick's Competition Games Chairman
- Lambda Chi Alpha Fraternity – Network Administrator
- Missouri University of Science and Technology – Cheerleader
- Missouri University of Science and Technology – Mascot
